Minimum System Requirements

You are required to have use of a computer system with the following specifications and components:

- 512MB RAM available
- Broadband (high-speed at 144 Kbps or faster), DSL, Cable or better is recommended
- Headset or headphones/ear bud and microphone (headsets strongly preferred)
- Pentium 4 or newer
- Webcam or video input (Unless your computer has an internal webcam, you will need to buy an external one. We recommend Logitech for webcam/headsets/microphone, although you can use whatever brand you prefer.)

Software/Applications

- Adobe Flash plug-in 10.0 or later
- Adobe Reader 9.0 or later
- Anti-virus program (updated regularly)
- E-mail account
- Local administrative privileges (for required software installations)
- Microsoft Office Suite 97 or later (must include at least Word and PowerPoint)
- One of the following Internet browsers:
  - Apple Safari 5.0 or later
  - Google Chrome 7.0 or later
  - Microsoft Internet Explorer 7.0 or later
  - Mozilla Firefox 3.5 or later
- Operating system:
  - Windows 2000, XP or later
  - Mac OS 10.4 or later, with Windows XP or later Boot Camp partition (for selected courses)
- System configured to allow installation of browser plug-ins as required
- Video recording device, we suggest the Flip or Sony Bloggie
