The mission of Northcentral’s Marriage and Family Therapy Program is to prepare competent, ethical, culturally sensitive Marriage and Family Therapists. The program emphasizes a family systems perspective so that client processes, whether these clients are individuals, couples, or families, are contextually conceptualized. Core Faculty and Faculty Mentors engage students in a one-on-one process that invites students to grow both professionally and personally through the development of critical thinking skills, information literacy, important clinical skills, an appreciation of research through the scholar-practitioner model, a valuing of diversity, and a lifelong commitment to learning and service.
